NCIT &ndash; A Great Place To Work!!

## Our Work Environment

People are an integral part of NewCreationIT's success. The work environment encourages continuous professional growth through mentoring, constant learning, training and certifications. Opportunities are available for working across technologies and verticals. We believe in helping people maximize their potential. We maintain a casual, friendly work environment that encourages open communication, knowledge sharing, and learning. People are not afraid to admit that they are continuously learning. We ask questions, we learn, we laugh, we work hard, we listen to music, we have a cup of tea or coffee and we talk - all in a day of work. To encourage creativity and foster team spirit we begin our regular workday with Christian prayer.

## Excellence

At excellence is the norm and mediocrity is not an option. We constantly strive for excellence. Excellence demands that we give 100% to the work we are doing. It means that our work is defect free, exceeds customer expectations and makes the customer absolutely thrilled that they came to us. We constantly think of ways to do things better, make our work defect free and our customers proud of us.

## Spiritual Synergy

The spiritual dimension of life is emphasized at NewCreationIT. The synergy of sound technical/professional skills with prayer, Bible reading, Christian music and Godly values makes an unbeatable combination and creates a healthy work environment.

## Join A Winning Team

We are always looking for people who want to become a part of our team, providing world class IT services and solutions to customers all over the globe. If you would like to be considered for opportunities with us please e-mail your resume to : [jobs@newcreationit.com](mailto:jobs@newcreationit.com) .

## Real World Mentoring Program

NewCreationIT's Real World Mentoring Program provides qualified candidates the opportunity to observe, learn from and be trained by software professionals who have several years of industry experience. The mentoring program provides candidates the opportunity to associate with and be guided by NewCreationIT's engineers as the candidates work on specific projects specified by their originating institution/organization. A wealth of learning takes place in addition to the development of professional skills. For additional details or to apply please send an email to:[info@newcreationit.com](mailto:info@newcreationit.com).
